Responses, whether written, facsimiles, or e-mails, must be received no later than close of business 30 calendar days from the date this notice is posted.

Questions relative to this market research should be addressed to Thomas P. Trivisani, tptrivi@inscom.army.mil at 703-428-4575 or as an alternate, Jo Robinson, jmrobin@inscom.army.mil at 703-428-4782.

PART II. Capabilities

Supporting Information: For each of the capability/experience areas questioned below, please provide the contract number (if applicable), a brief description of the work performed, the period of performance, the agency/organization supported, and an individual point of contact.

To assist in the evaluation of your submission, please respond to the questions in the following format:

- Provide any company narrative/history information.
- Restate the question.
- Provide any narrative information describing your capability/experience in support of the question.
- Provide the supporting contract information requested above.

Capability Questions:

1. Describe your experience in performing similar type depot maintenance for commercial or government purposes, along with any other appropriate background information.
2. Describe your experience in performing work under contract with the U.S. Government.
3. Describe your organization's experience in obtaining Government Furnished Material (GFM) through the Department of Defense (DOD) supply system.
4. Describe your organization's experience in managing Government Furnished Material (GFM) and reporting through the DOD system.
5. Describe your ability to supply as much of the needed materials as possible as Contractor Furnished Material (CFM) rather than as GFM through the DOD supply system.
6. Describe the facilities and equipment you have available in South Korea or the Pacific Theater available in which to perform all phases of the Depot Maintenance process including depaint and paint. In addition please provide the location of all facilities that are FAA certified Part 145 Repair Stations in South Korea or the Pacific Theater.
7. Describe your company's quality assurance program.
8. Describe your company's capability to manufacture parts that may be needed for depot maintenance when not readily available for other sources.
9. Describe your company's engineering and testing capabilities.
10. Describe your company's experience in using U.S. Government Technical Orders and Technical Manuals.
